The Borneo Initiative
INTERNATIONAL PLATFORM FOR SVLK/PHPL AND FSC
FOREST CERTIFICATION INITIATIVES IN INDONESIA

Vision 2020

Jesse Kuijper, Executive member of the board
Factsheet Building and Borneo creates steep demand for FSC timber

Save Borneo with the chain approach

NL imports of wood products 2015 (Probos 2015):

- 86% certified
- Of this, 74% FSC
**The Borneo Initiative.**

### Target:
- *Large-scale* – 4 million ha
- *Fast-track* – 2-3 years

### Approach:
- **Catalyst:** building on existing programs (platform)
- **Volume, quality and reliability:**
  - Middle to large concessions
  - Group certification
- **Capacity building** (grant 2 $/ha) for RIL, social relations, conservation, coaching, audit
- **Dual certification** SVLK-FSC
- **Market links** – Europe and USA

#### Phase I – Feasibility assessment: 10%
- Scoping study by certifying body
- Action plan development
- Decision on feasibility

#### Phase II – Plan implementation and certification: 80%
- Cost/lead consultant
- Cost of social and ecological studies (HCV), RIL
- Main assessment by certifying body

#### Phase III:
- Annual inspections by certifying body (3 years)
- Market links
Achievements August 2016:
- 41 grant agreements (3.9 m ha); 28 Kalimantan (2.2 million ha)
- 25% of active concessions
- 22 certificates (3 CW), 2.25 m ha

Highlights:
- First ever FSC in mangrove
- First ever FSC in Papua (ID)
- First ever FSC merbau (ID)
- First group certification in ID at company level
- Double certification PHPL-FSC in preparation
- FSC certification plantation forest in preparation
- Carbon audit of FSC practices conducted (RIL-C pilot)
- 3 trade encounters (Jakarta, Surabaya)
